CAREER OBJECTIVE

Computer Science & Engineering student (BSc, graduating Oct 2027) in Hungary, seeking a junior AI/ML or Full-Stack role. Focused on GenAI, building hands-on projects with LLM-powered apps, RAG pipelines, semantic search and automation workflows. 2+ years of experience delivering full-stack web applications for clients and personal projects with React, Next.js, Node.js, Express, MongoDB and SQL, with a focus on performance and accessibility.

TECHNICAL SKILLS:

Frontend
React.js, Next.js, JavaScript ,TypeScript, Tailwind CSS

Backend
Node.js, Express.js, FastAPI

Databases
MongoDB, SQL , PostgreSQL

Programming Language
C , C++(with DSA) , JavaScript,C#, Python

AI ML DL
Python, scikit-learn, PyTorch, pandas, NumPy, CNN,RNN,NPL,GenAI ,Transfer Learning

PROJECTS

Agency Website *(github , live)*

Built a full-stack digital agency platform where the public site captures leads and the admin app runs delivery: CRM, projects, finance, and team access. Clients sign in to a separate portal to view their own projects, invoices, messages, and files. Role-based permissions limit each staff role to the screens it is allowed to use.

Major Features:

- Reports for revenue, clients, services, team, and marketing
- Role-based access for admin, project manager, sales, finance, and specialist roles, plus attendance, time tracking, and a personal My Work view
- Finance module for invoices, payments, expenses, revenue, proposals, and contracts, with invoice download

Fast API Backend *(github , live)*

Built a REST API with secure JWT authentication, full transaction CRUD and filtering by type, category and amount range; deployed on Render with auto-generated OpenAPI docs.

- Anomaly detection: flag unusual transactions with Isolation Forest or a z-score.

EDUCATION & CERTIFICATIONS

BSc in Computer Science and Engineering
John Von Neumann University
Majors: Software development,Currently in 5th semester

Web developer Certification
Programming Hero Co.

LANGUAGE

English

EXTRACURRICULAR ACTIVITIES

Programming Club
John Von Neumann University

Hackathon
University program
